## Work Experience

### Fiserv – Senior Business Analyst

2024 - current

Los Angeles, CA

- Steered a cross-functional delivery stream across Product, Engineering, Risk, and Ops, **improving on-time releases from 74.6% to 86.2%** over 2 quarters.
- Brokered scope tradeoffs on a compliance-driven change, protecting critical controls while keeping the launch date within a 9-day slip window.
- Operationalized requirements and traceability in Jira + Confluence, cutting “returned for clarification” stories from 21 to 8 per release.

### Golden State Medical Supply – Business Analyst

2023 - 2024

Los Angeles, CA

- Mapped order-to-fulfillment (including backorders and substitutions) in Visio, reducing exception handoffs from 6 touchpoints to 3.
- Coordinated a pricing/contract update rollout across 17 SKUs, **preventing \$23,784 in invoice reversals** by tightening validation steps.
- Clarified reorder and allocation rules with Ops, lowering “where’s my order?” escalations from 39 per week to 22.

### Evolent Health – Associate Business Analyst

2022 - 2023

Los Angeles, CA

- Compiled UAT evidence and defect summaries in TestRail, increasing first-pass test completion from 81.1% to 90.4% in the next cycle.
- Translated stakeholder notes into 26 user stories with crisp acceptance criteria, **reducing mid-sprint churn from 14 changes to 6.**
- Automated intake and status updates with Zapier, cutting manual follow-up pings from 31 per week to 9 while keeping audit trails intact.
- Tracked decision logs and change impacts across 11 ceremonies, improving handoff clarity so reopened tickets dropped from 12 to 5 per release.

## Education

### University of Southern California – B.S., Business

2018 - 2022

Los Angeles, CA

## Skills

Jira + Confluence; Visio; TestRail; Zapier; Ambiguity-to-spec conversion; Executive narrative writing
